

Window Film Specifications

The window films listed below are frequently selected by our customers.
 Several other products are available for review and consideration.
 Our specialists will be happy to present other options.

HÜPER OPTIK™

VLT = Visible Light Transmission
 VLR = Visible Light Reflection
 UV = Ultraviolet Rejection
 GR = Glare Reduction
 TSER = Total Solar Energy Rejected

Performance Data

is based upon the film being applied
 to the inside of a DUAL pane clear glass window.

The data is subject to variation
 within industry standards.
